

The K-Love radio station is one of the only family oriented radio stations in our community. My children, who are in elementary school, wake up to their programming and I have no fear of what will ever be broadcasted. We do not want to see K-Love displaced by a LPFM radio station that does not broadcast family oriented programming. K-Love is one of the only radio stations of its kind in my community and it would be devastating to see it impacted in any way, shape or form. Having K-Love as a nationally broadcasted service has been amazing! I was such an encouragement to listen to during our travels across the country. We urge you to please consider the negative impact of having LPFM take priority over current FM translator service.
